# Press Release

## Sustainable Homes, Inc. and Vintage Oaks at the Vineyard offer free seminar on Meeting Future Water Needs Through Rainwater Harvesting.

New Braunfels, TX, August 9, 2009: Sustainable Homes, Inc. and Vintage Oaks at the Vineyard will be presenting a free seminar on Meeting Future Water Needs Through Rainwater Harvesting on August 15, 2009 at 10:00 A.M. in the Vintage Oaks Clubhouse at Vintage Oaks at the Vineyard. The program will focus on the current drought status, how well rain harvesting works in a drought, sizing a rain catchment system, and the environmental and economic benefits of rain harvesting. John Kight, current president of the Texas Rainwater Catchment Association, will be presenting. John has been instrumental in finding working solutions to water needs in the Texas Hill Country. The session will also include a tour of a home sustained solely by rain water.

The seminar is free and open to the public. Space is limited to the 1<sup>st</sup> 50 registrants.

To register for this free event and learn more about upcoming seminar topics, visit [www.sustainablehomesoftexas.com](http://www.sustainablehomesoftexas.com) or call 210-867-0800.

### **About Sustainable Homes, Inc.**

Sustainable Homes is a national leader in building fully sustainable homes. Based in the Texas Hill Country, the homes are designed and constructed to take advantage of all the natural elements available. Features include rain water harvesting, water conservation, a grid-tied photovoltaic solar system, highly energy efficient building methods with an emphasis on indoor air quality, and a concern for the least amount of impact on the environment.

The mission and ultimate goal of Sustainable Homes is to give their clients a choice of personal accountability for the future costs of their utilities and the quality of life they enjoy in their home.
